

November 27, 1973

STAT [redacted]  
EA, DD/CI

STAT [redacted]

STAT For your information, the attached [redacted] cables  
STAT were transferred into the RESTRICTED HANDLING channel  
STAT from the STAFF channel by direction of [redacted]  
STAT of the NE Division. [redacted] of the Cable Secretariat  
STAT recalled all copies of these cables which were distributed  
STAT in the Headquarters Building. Also, [redacted]  
STAT of 26 November told [redacted] about the transfer and advised  
STAT to discontinue use of [redacted] on this type of traffic.

For the record, the copies enclosed are the only  
ones on record in the Headquarters Building. No other  
distribution was made.

STAT NEW SUBJECT: Since no Project Cryptonym has been  
STAT assigned to this case, it is suggested that future cables  
STAT concerning this case show [redacted]  
[redacted] in the preamble. This would simplify identification  
of your cables and prevent unauthorized distribution. If  
this case is to continue for a long period of time, you may  
wish to consider assignment of a Project Cryptonym to it.  
The Communications Watch Officers can advise you regarding  
procedures to follow in assignment of such a Project Cryptonym.
